

SAVE GREEN. RIDE GREEN.

You already know that riding Omni saves you money. But did you know it also helps save our environment? Our CNG (compressed natural gas) buses reduce emissions as much as 87% compared to diesel buses. In fact, we've been using environmentally friendly, natural gas-powered vehicles since 1997. So ride Omni. And do something as good for the air as it is for your pocket.

MORE REASONS TO RIDE.
